The decision to restrict public access and modify methods of operation is merely an attempt to do our part to curtail the spread of this respiratory sickness. Please remember that everyone plays a part in slowing this pandemic; remember to wash your hands with hot water and antibacterial soap when possible, use hand sanitizers, and practice social distancing, especially if you have any symptoms of illness. If you experience shortness of breath or chest pains, especially if you have other medical conditions, call your healthcare provider for guidance on how to treat your symptoms.
